

Marin

'Green' thumbs

Barry O'Brien, 11, waters corn and cucumbers in a raised garden bed Friday at Bahia Vista School in San Rafael as part of Marin Conservation Corps summer service days. The four-week session, called Project Regeneration, teaches youths to grow food. At right, master gardener and nutritionist Karen Holleran teaches Dominic Bynum, 12, how to water tomato plants. Holleran is part of the nutrition wellness program for the county. Below, Barry examines a cucumber.
